

Capital City Dance Center is excited to combine the best local instruction with internationally renowned guest faculty for the **2008 CCDC Summer Intensive** and **Summer Workshops**. There's a renewed focus this year on building on sound fundamental classical technique to allow for the greatest artistic expression. Remember, it's never too early for young students to get the best in dance training at **CCDC**! There are several opportunities to keep training this summer at **CCDC**...and you can mix and match to fit your schedule. The **CCDC Summer Intensive** offers three levels of Ballet, Pointe and contemporary dance for half-days or all day for two weeks in June. The rest of the **CCDC Summer Workshop Series** picks up after the Intensive and continues through August. Remember: *Nutcracker* Auditions can take place as early as late August. Don't let another summer just slip idly by! Help your children rediscover the joy of movement! And, let them get in touch with their inner-dancers at the **Capital City Dance Center Summer Intensive** and **Summer Workshops**!
